SUMMARY

Results-driven Web Developer skilled in WordPress, MERN Stack (React.js, Node.js, Express.js, MongoDB), and responsive front-end design with HTML, CSS, JavaScript, Tailwind CSS, Bootstrap. Experienced in API integration, SEO optimization, and performance tuning to deliver fast, mobile-friendly, and user-focused websites. Proficient in Git/GitHub, cross-browser compatibility, and scalable web application development.

SKILLS

- **Front-End Development:** HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, React.js
- **Back-End Development:** Node.js, Express.js, MongoDB
- **Tools & Platforms:** Git, GitHub, Postman, VS Code
- **Core Competencies:** Responsive Web Design, API Integration, Scalable Web Application, WordPress Development

PROJECTS

Full-Stack CRUD Application

[Live Preview](#)

- Designed and developed a CRUD application using the MERN stack, following the MVC architecture pattern on the backend for clean code organization and maintainability.
- Implemented React Toastify and SweetAlert for intuitive user feedback and alert modals.
- Tech Stack: React.js, Express.js, Axios | MongoDB Atlas

Image Search App Using REST API

[Live Preview](#)

- Built a dynamic image search application using JavaScript, fetching real-time image data from the Unsplash REST API.
- Tech Stack: HTML, CSS, JavaScript, Bootstrap

Digital Marketing Course– Landing Page

[Live Preview](#)

- Converted a Figma UI design into a responsive, production-ready marketing website using HTML, CSS, and Bootstrap.
- Integrated interactive components like Modals and Accordions to enhance user engagement.
- Tech Stack: HTML, CSS, Bootstrap

Digital Marketing Agency Website

[Live Preview](#)

- A professional digital marketing agency website inspired by the SEO WP theme using WordPress, Elementor, Astra theme, and WPForms.
- Demonstrates proficiency in WordPress customization, UI/UX, and website deployment.
- Designed pages using Elementor Page Builder for flexible and pixel-perfect layouts.
